EXCELLENT SERVICE

HIGHEST QUALITY

To My Customers and Friends—

To introduce this book with prices on bulbs and roots, I beg respectfully to call the attention of those interested to the following facts:

I will endeavor to supply the commercial growers and dealers with bulbs and roots of the highest quality and varieties most suitable for the Pacific Coast and Middle West. To avoid unnecessary delays, overcharges and other disagreeable factors, all goods are offered f.o.b. San Francisco and quantities sufficient to supply any reasonable demand are kept on hand during the different seasons.

My thorough knowledge of the goods I am offering I have acquired during eighteen years of practical work both in Holland and in this country, and is a valuable asset as a guarantee to my customers of receiving the best obtainable and by which they may profit.

In consideration of the above stated facts I trust that I may have the preference of your most valued orders throughout this season and for many seasons to come. I am,

Yours faithfully,

ADRIAN J. SCHOORL.

Conditions of Sale

ORDER EARLY. Send in your orders as soon as possible after receiving catalog to insure prompt delivery. All orders are filled the same day they are received, as far as practicable.

ERRORS. We exercise the utmost care in filling orders, striving to do a little more than I offer; yet, in the press of business, errors sometimes occur in which event I wish to be promptly notified of the fact, and I will make such corrections as will be satisfactory. Please keep copies of all your orders for comparison.

ALL ACCOUNTS are strictly due thirty days from date of invoice; 2 per cent for cash is allowed for payments within ten days.

COMPLAINTS AND CLAIMS about the quality of the goods cannot be entertained unless made *immediately upon receipt of same*.

I GIVE NO WARRANTY, express or implied, and will not be in any way responsible for the results of planting or forcing of any bulbs and roots I send out. I guarantee, however, all varieties to be true to name and description.

RETAIL OR PRIVATE ORDERS are not accepted. Orders for growing crops accepted subject to crop failure, shortage or other causes beyond my control.

ALL OFFERS are made subject to being unsold upon receipt of orders.

No CHARGE is made for packing.

ADRIAN J. SCHOORL.

Named Hyacinths

Under this heading I offer only the best and leading commercial varieties of Hyacinths, of which I have grown large quantities in Holland by one of the best growers with whom I have a standing agreement whereby he is to supply the best obtainable, and at growers' prices.

FIRST SIZE

18-20 cm.

	Per 100
Cardinal Wiseman, very fine deep pink, large compact truss, late.....	\$7.50
General de Wet, delicate pink, very large truss and tall.....	7.50

City of Haarlem, beautiful golden yellow.....	7.50
Yellow Hammer, pure yellow.....	7.50
Lord Balfour, violet purple, large bells and spikes.....	7.50

SECOND SIZE HYACINTHS

16-18 cm.

This grade is considered the best value offered in Hyacinths; the bulbs being of the same age as first size but falling just below the required measurements of the latter, hence the important reduction in price. For outdoor planting in beds and borders they are preferable to their larger brothers. The flower spikes not being quite so heavy, endure much better the occasional rough winds during springtime.

THIRD SIZE HYACINTHS

(Bedding)

15-16 cm.

Recommended highly for bedding. The bulbs are of the same size as the mixtures, but I supply these named in order that they may be used in borders and groups in one single shade.

MIXED HYACINTHS

15-16 cm.

For large plantings where the price of second size bulbs makes their use prohibitive, this size is used with much success. As these bulbs may be planted more closely together the solid color effects of the beds will also be greater, the ground being better covered with blooms.

DUTCH ROMAN HYACINTHS

(Miniature Hyacinths)

Some growers still seem to be under the impression that the Hyacinths listed under this heading are of an inferior grade, while in fact they are nothing but a small size of the ordinary Dutch Hyacinth. They are fine for outdoor planting where they can be left for several years and are also fine for cut flowers.

PREPARED HYACINTHS

These bulbs have not been grown successfully on the Pacific Coast and for that reason have been discontinued.

Darwin Tulips

Not too much can be said in praise of this class of Tulips and now that the prices have become moderate, they should be planted more extensively. They excel in brilliancy of colors, perfect form of flowers and very tall, strong stems. For splendid effect in borders and planted in small groups amongst shrubs they are unsurpassed. As a cut-flower they are of great value and may be had in bloom from the first of February in the greenhouses. The following varieties I consider the best and most profitable for florists' use:

BREEDER TULIPS

Breeder Tulips, although in growth and habits closely related to the Cottage and Darwin Tulips, form a distinct class by themselves, comprising only self colors, running through all the shades of brown, bronze and buff. With their large and gorgeously colored flowers which are gracefully carried on tall, strong stems, and their fine lasting qualities, they make excellent material for garden decorations, and are very desirable as cut flowers.
